

CUBE

HIGH PARTITION

DESIGN
EXPLANATION OF
WALL STORAGE SERIES

Office space is the workplace, but also the employees' living space. Modern enterprises pay more attention to humane working environment, and fit into the corporate philosophy to the decoration. High compartment can be easily combined with the construction of the wall, creating a closed or open space, visual permeability and sound isolation on the flexible adjustment, is to create humane ideal solution for office space.

VICTORY CUBE wall high compartment and high wall cabinet products provide support for the ideal office space, its modular structure reduce the construction period while still ensuring quality. There are a full range of product sizes, a variety of options and flexible plate connections. It can be adapted to any building structure, build your expectations decoration style and space layout, and to facilitate future changes and upgrades for the spatial layout.

p wall system, so that the whole uniform space as a whole, while acting as walls and storage cabinets, repeat the input space and cost - saving, high price / performance.

As an office wall, it creates acoustically and visually protected areas.

The design wins over with svelte elegance and clear outlines, and it can be specified in a wide range of materials and panel sizes.

Used as a corridor wall, it enables transparency and lets daylight into central areas.

Different designs and materials can be applied to each side of the office wall, facilitating the integration of several organization and storage elements.

Spare parts with various functions
available for adopting.

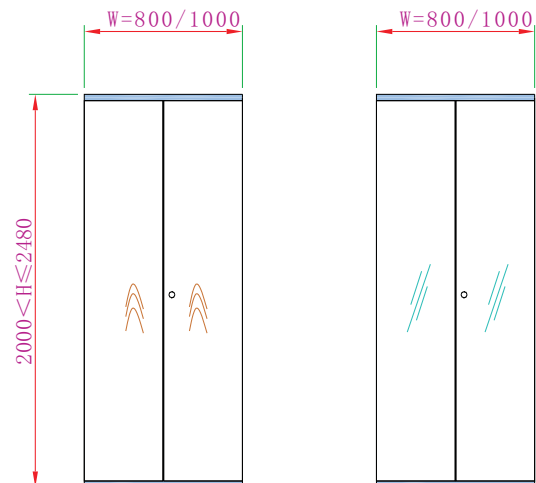

---分段尺寸

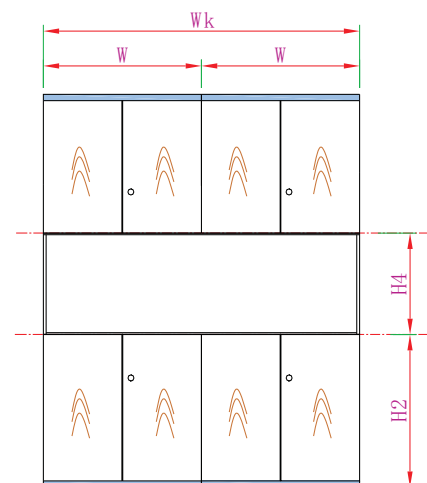

分级原则说明：

- 1、H表示柜高、W表示柜宽、D表示柜深、H1至H6表示分级高度；
- 2、H1、H2取值满足条件：
 $H1、H2=N*32+4.5$ ；
- 3、H3、H4、H5、H6取值满足条件：
 $H3、H4、H5、H6=N*32$ ；
- 4、带抽屉柜（如CBQG11）常规H2取值为964.5；H1建议取值为2180.5
- 5、分一级时：
 $H \leq 2480$ （MFC），
 $H \leq 2780$ （实木）。
