We do not require that all the people can recognize and enjoy our products, because we never make compromise with any profane insight, because we only cooperate with bosom friends, then who are our bosom friends? In our opinion, they must experience good educations and pursue higher life style and emotional appeal, they are excellent fashionable persons, who do not follow the masses, are modest but not invidious, present the deep thought of the life and unique comprehension on the art, better economic foundation, are full of responsibility and affection and rebound upon the society.
