

It's the perfect intelligent soundproof space where anything can happen, important one-on-one private conversations, brainstorming, engage in intense discussions, ideal for video-conferencing and phone calls. Discuss in private without disturbing your colleagues. Promotes creativity and stimulates new ideas. It breaks the limitations of open office, responds to the mobility demands and provides comfort for employees' work behavior and physical-mental health. The ultimate solution for happiness in workplace and well-being of corporate culture.

SOUND INSULATION STRUCTURE

- Sound-absorbing decorative covering cloth
- 5mm high density environmental protection sound insulation material
- 5mm high density environmental protection multi-layer solid wood
- 1.5mm wall thickness steel tube frame outer sealing 1mm thick steel plate
- Inside is filled with 50mm thick environment-friendly sound-absorbing cotton
- 9mm high density environmental protection multi-layer solid wood
- 9mm thick 6kg density environmental sound absorbing board

GLASS

- Toughen 5mm inside and 5mm outside
- The double glass is filled with argon gas

SURFACE SPRAYING

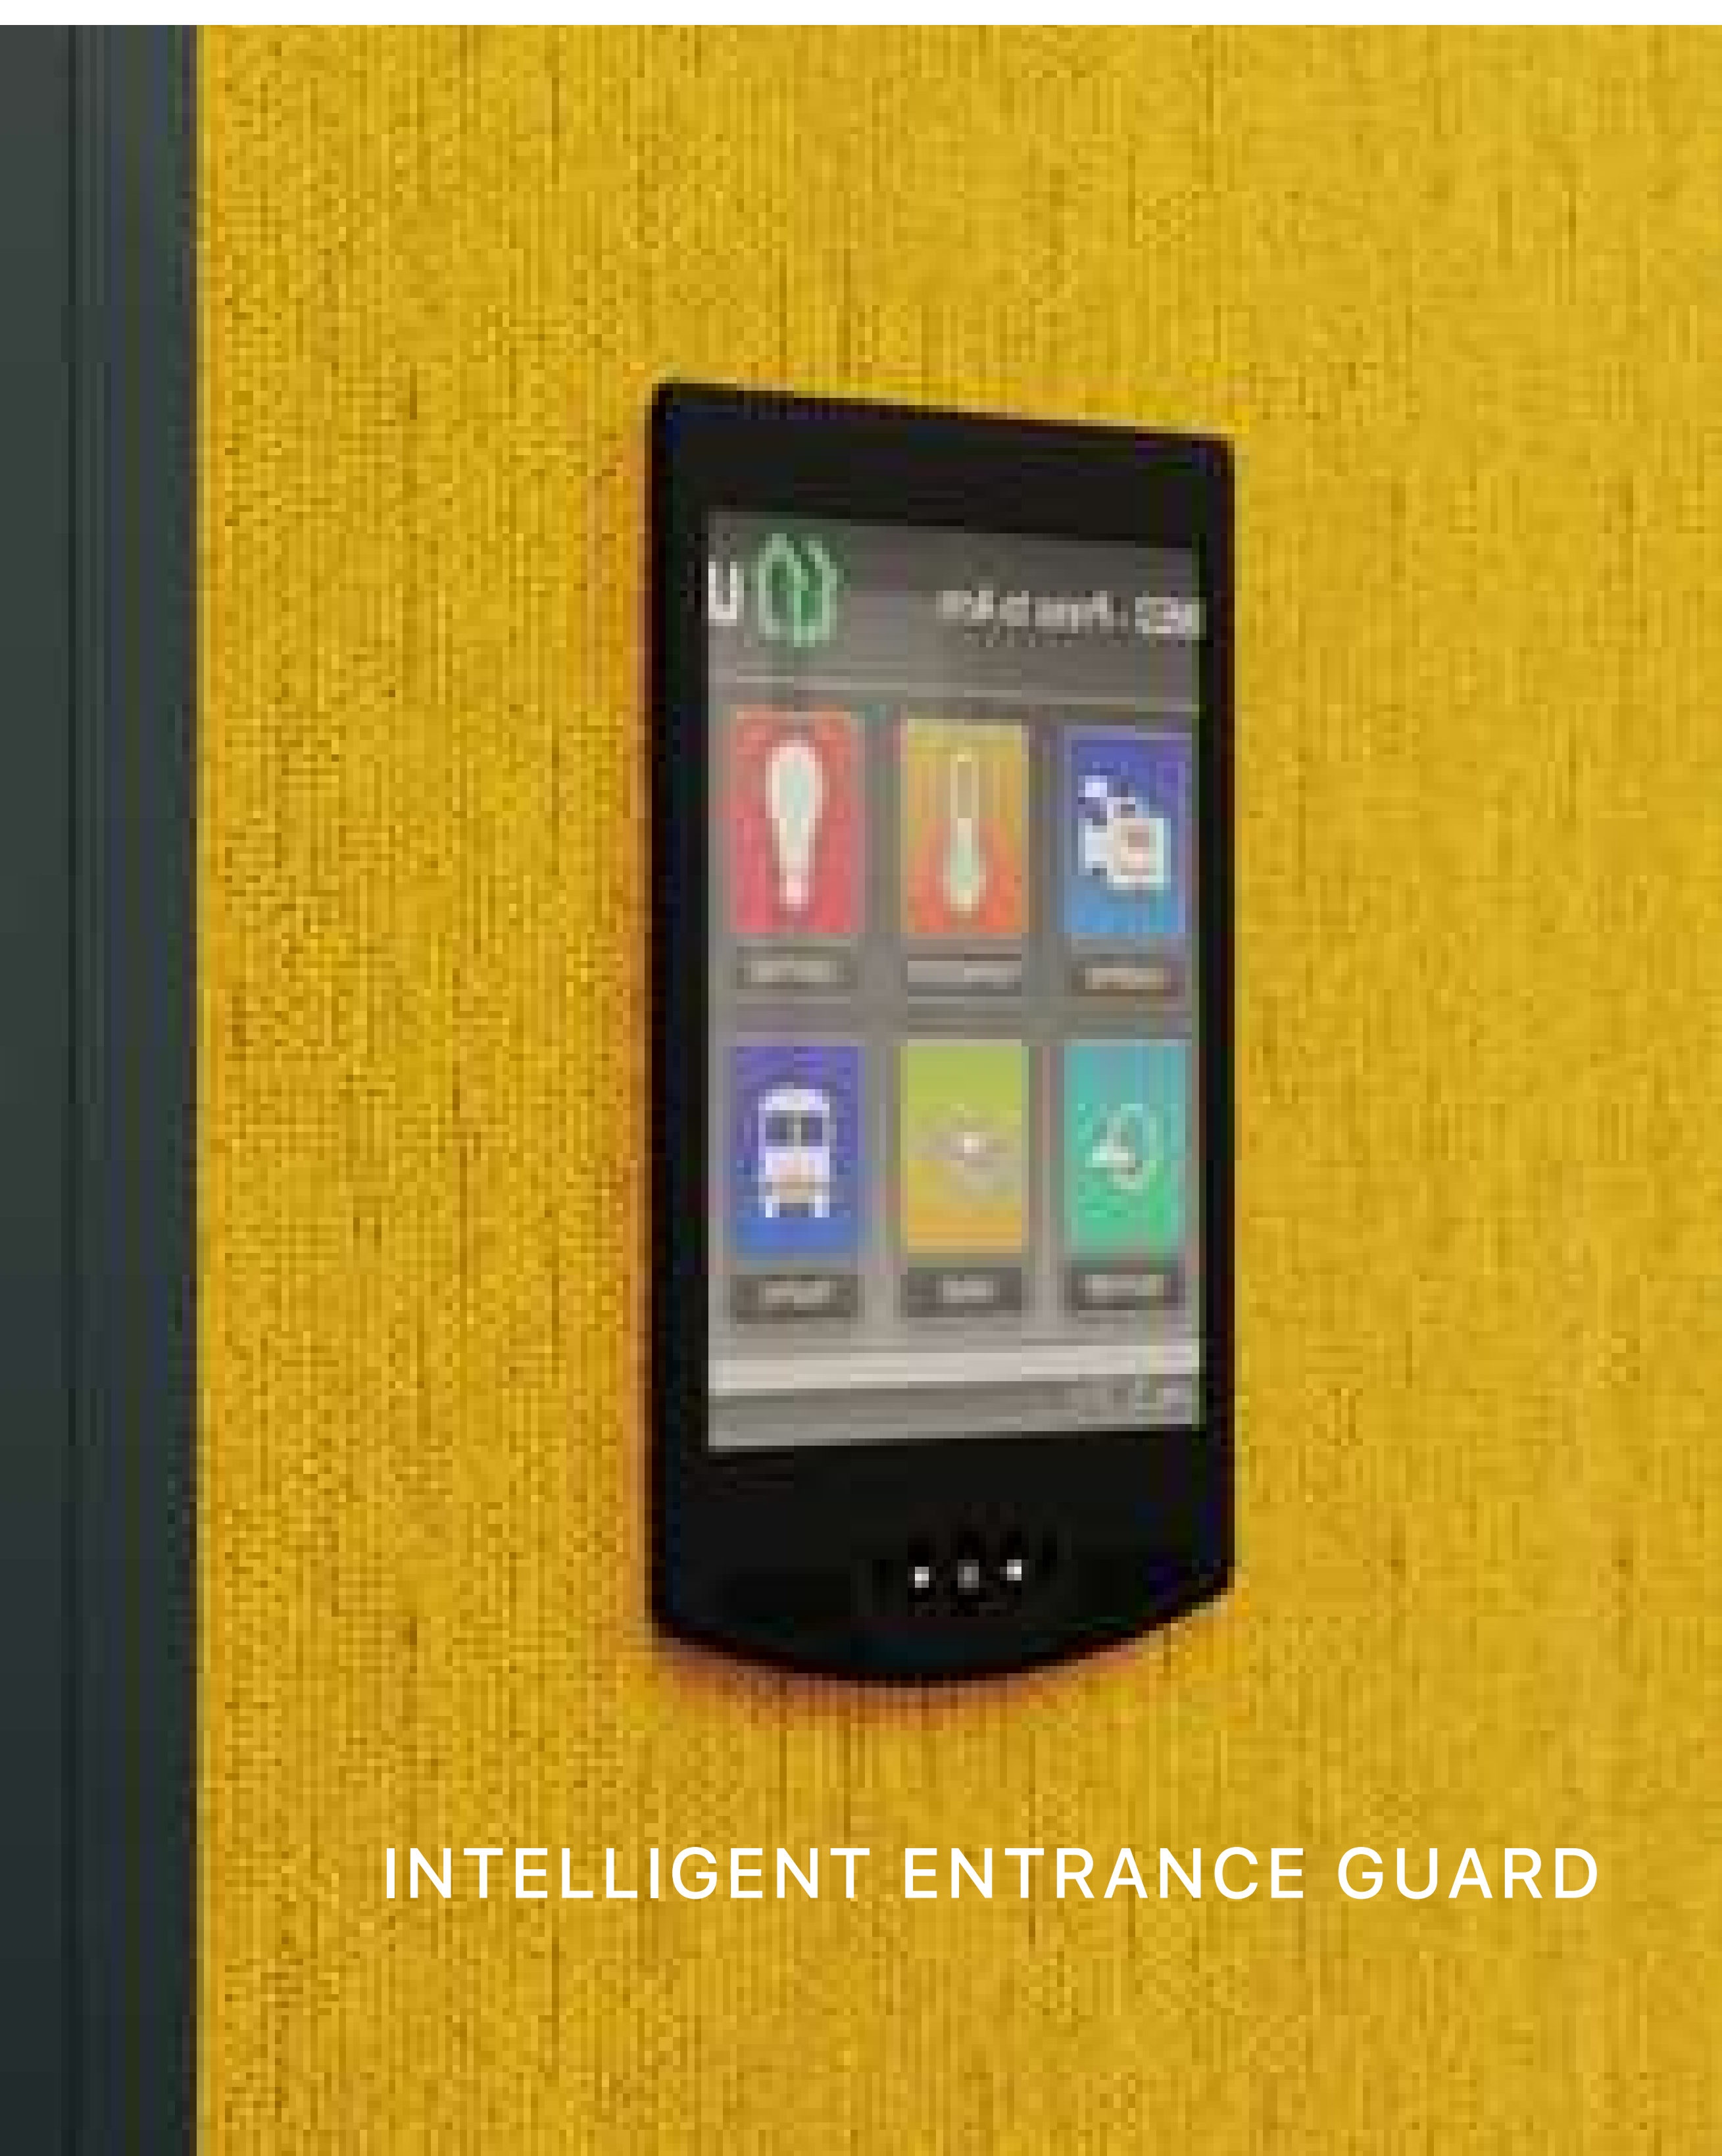

- German brand Oxyplast powder

TELEHAUS

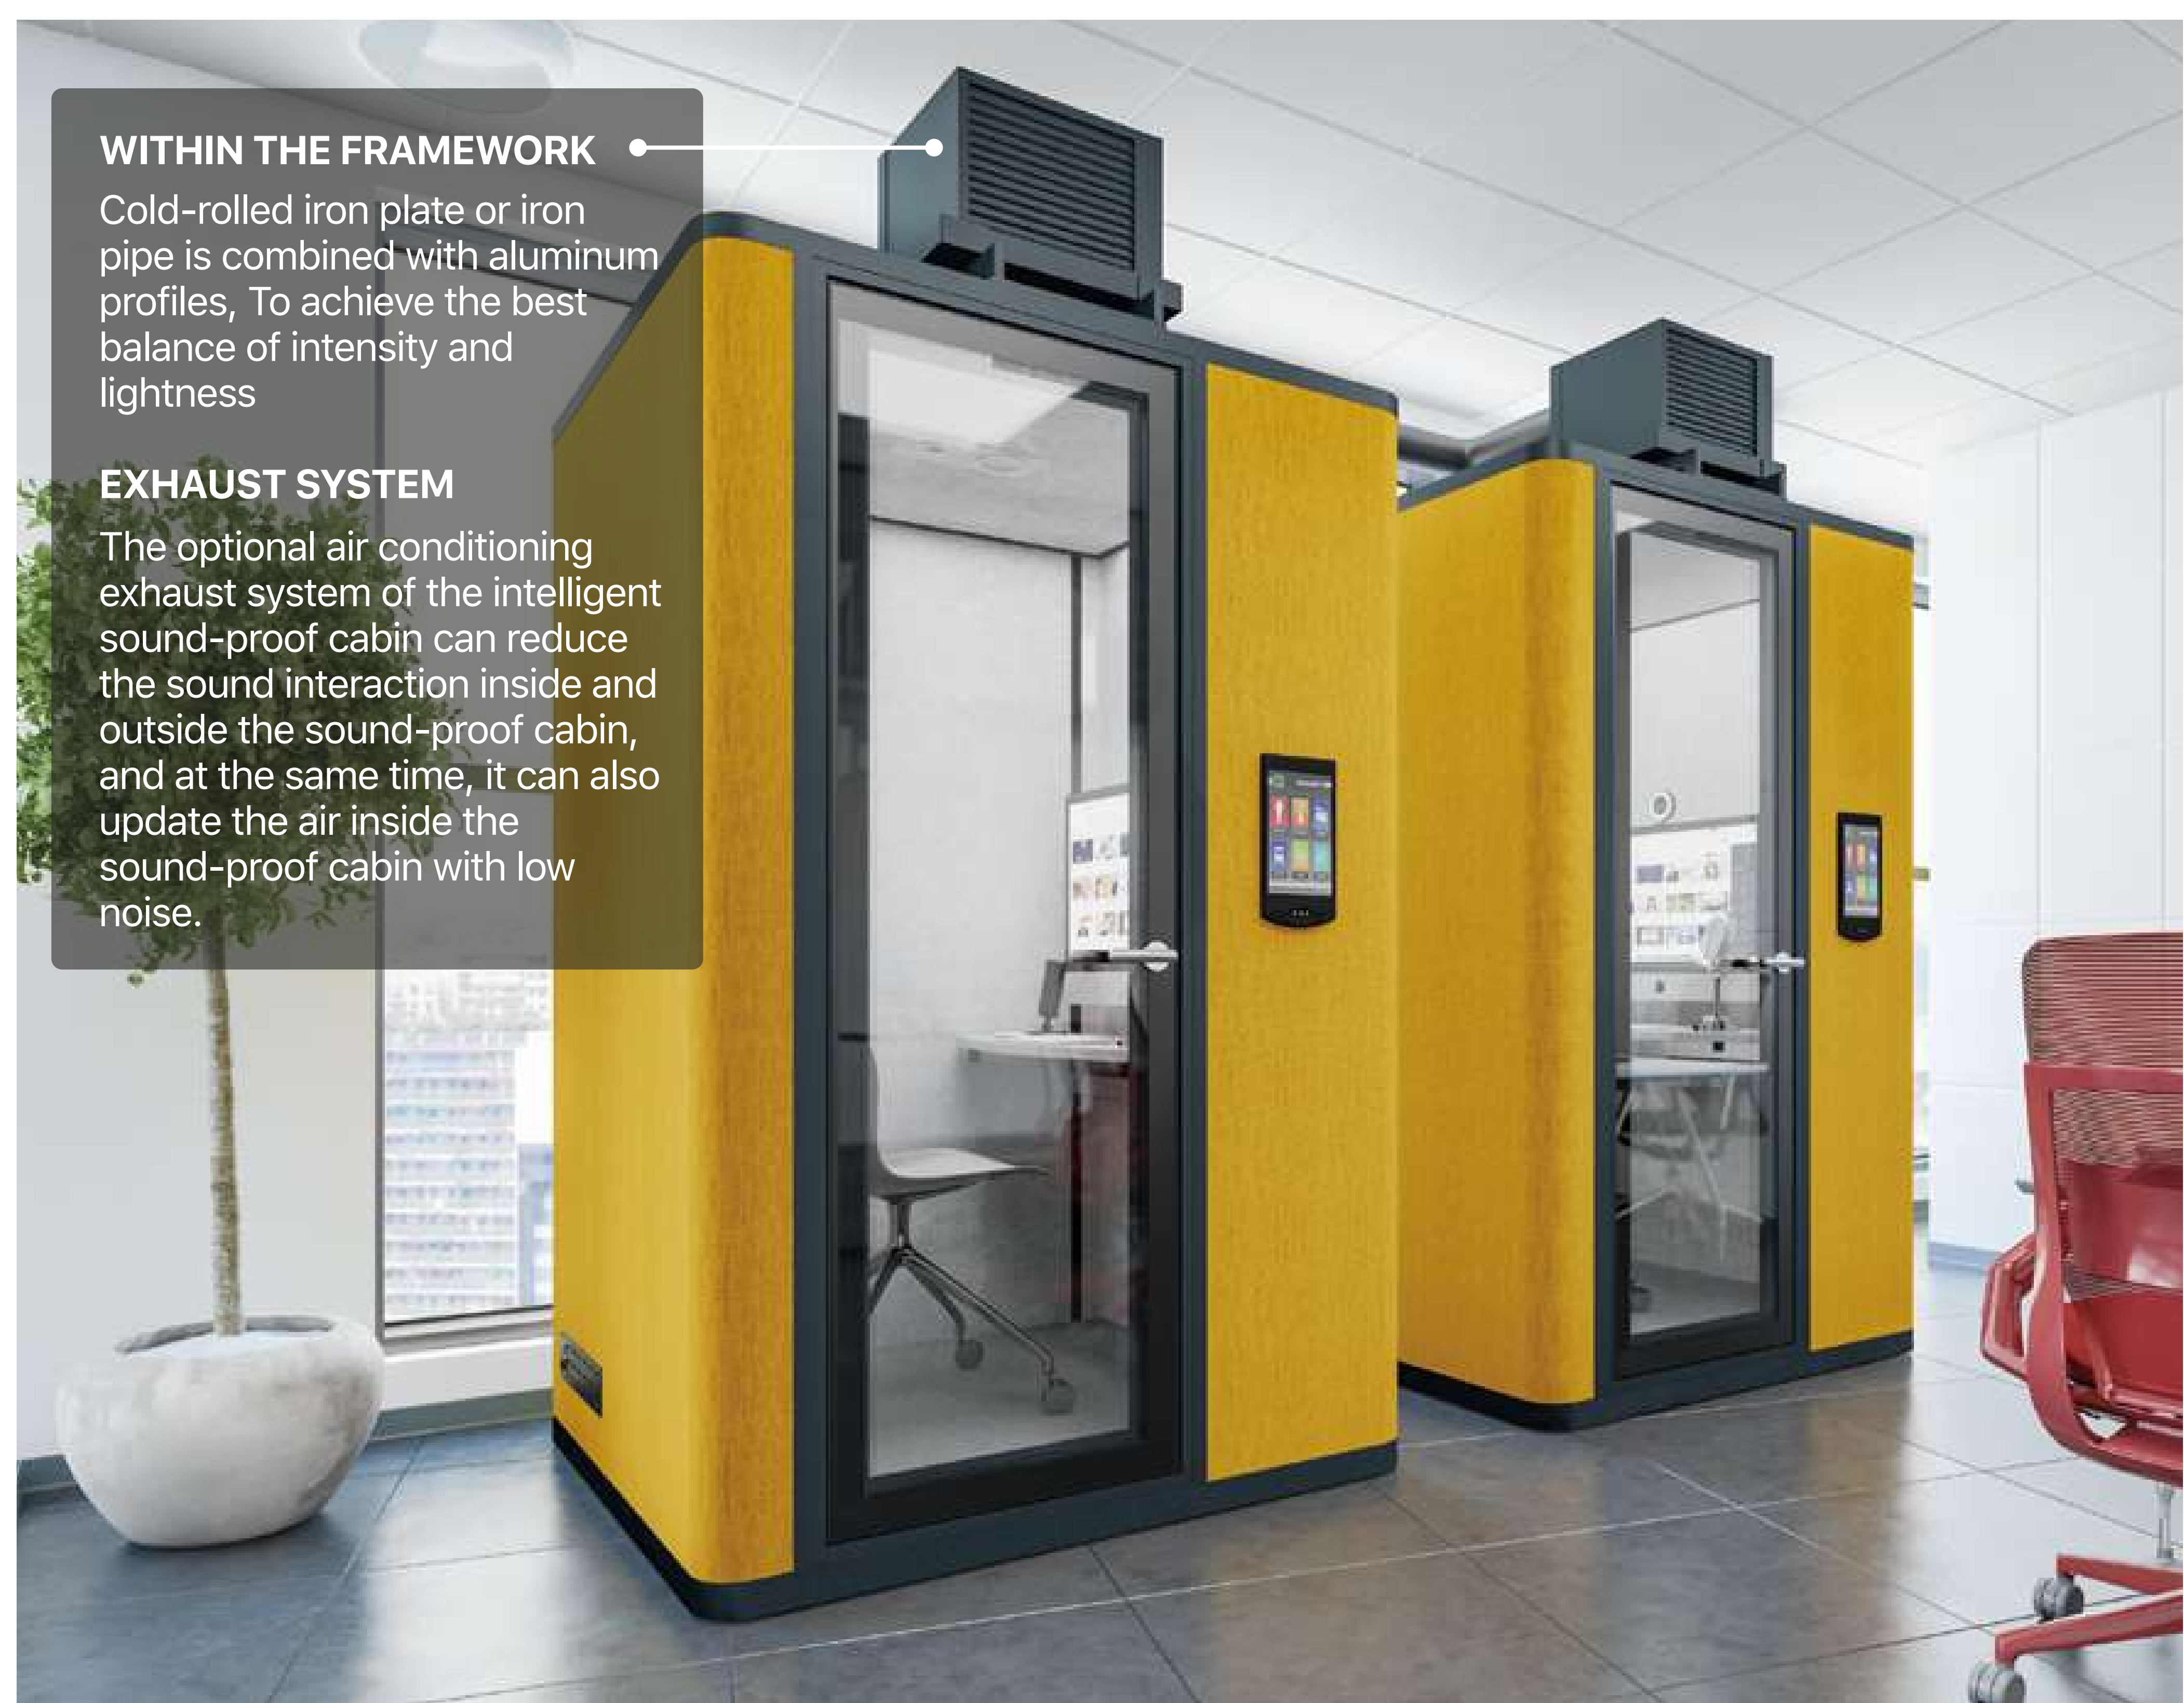

by Christopher Lim

FEATURES:

- **Intelligent Soundproof Cabin** with advanced insulation ideal for Music Recording Studio.
- **Noctua Austria Fluidized Intelligent Speed Regulation Fan Ultra Thin & Ultra Quiet.**
- **Air-conditioning Exhaust System** characterized by Large Air Volume & quietness
- **Silica Gel Integrated Anti-Seismic Pad** to effectively reduce vibration and sound.
- **Phillips LED Lighting System** Anti-glare & Speedup Heat dissipation.
- **Legrand Infrared Smart Sensor Switch Board** with CE (EMC+Safety) certification, human sensors to automatically start and turn off lighting.
- **Intelligent Access Control System with Face Recognition** Integrateable with the Security & Attendance Management System.
- **AntiStatic & AntiFouling Low Loop Pile Carpet**
- **7 Layer Insulation Structure** for Highest Level of Soundproofing
- **High Grade, Fire Retardant, Cashmere Pinnable Fabric** Thick, compact and soft texture for Traceless Pushpins.
- **USB Fast Charging Sockets** along with International 6amp plug points
- **German Oxyplast Surface Spraying**
- **Equipped with height adjustable Movable Wheel System** Flexible and convenient to move around.
- **Exquisite Detailing with Built-in Hooks** for Hanging Clothes, Hats, Bags etc.
- **Exceptional RND, Standard Product** with Installations Worldwide
- **Highest Environmental Certifications**
- **Easy and Fast Installation** with high strength wheel feet.

INTELLIGENT ENTRANCE GUARD

WITHIN THE FRAMEWORK

Cold-rolled iron plate or iron pipe is combined with aluminum profiles. To achieve the best balance of intensity and lightness

EXHAUST SYSTEM

The optional air conditioning exhaust system of the intelligent sound-proof cabin can reduce the sound interaction inside and outside the sound-proof cabin, and at the same time, it can also update the air inside the sound-proof cabin with low noise.
